Mr Cashman is a game of chance which can be played on selected Pyramid Power Electronic Gaming Machines and is a random bonus feature that may appear randomly at the end of any game where the player has placed an additional Mr Cashman bet.

### Return to Players

The Mr. Cashman random bonus feature is programmed to return to players a minimum of 93.15% of the money or credits wagered, as an average return over the long term.

### Outlay

If a player bets the minimum of 1 credit per ball with 1 ball selected on a 1c game the outlay will be:

- 1c per game;
- 12c per minute;
- \$7.20 per hour.

If a player bets the maximum of 20 credits per ball with 20 balls selected, and bets an additional 5 credits per ball to be eligible to win the Mr Cashman feature, on a 10c game the outlay will be:

- \$50 per game;
- \$600 per minute;
- \$36,000 per hour.

### How to Play

The player is not required to have a winning game to be eligible for the Mr Cashman feature. In order to be eligible for the Mr Cashman bonus, players must play 20 balls plus Mr Cashman.

The bet for Mr Cashman is 25 credits multiplied by the bet per ball.

One of the four random bonus features may appear as detailed below.
